Some inconsistencies with column 1 - some people took it as having heard of it, AND are using it, as opposed to having heard of it only, and are yet to use. Some Graphic Organisers eg PMI, T Chart, KWL well utilised, as are Thinkers Key and De Bonos Hats.

Next phase of development will be to diversify the arsenals of some teachers in regard to thinking tools/skills, and to see them more evident in planning, as opposed to incidental use.
